### Fish Consumption Rate Technical Work Group and the Coordinated Tribal Water Quality Program:

Attached is the letter from NWIFC to Ecology with comments about the Fish Consumption Rate Technical Support Document. Individual tribal comments are important, and tribes are encouraged to send them to Ecology, even if they are brief, prior to the January 18<sup>th</sup> deadline. Comments go to: [fishconsumption@ecy.wa.gov](mailto:fishconsumption@ecy.wa.gov)

Also attached are my notes from two workshops held by the Department of Ecology in December. The December 12 workshop was about Fish Consumption Rates, and the December 13 workshop was about water quality standards/implementation tools. Most of the material from speakers at the December 13 workshop is posted on the website:

[www.ecy.wa.gov/programs/wq/swqs/RuleRev2011.html](http://www.ecy.wa.gov/programs/wq/swqs/RuleRev2011.html)

PLEASE SAVE THE DATE: There will be a meeting for the Fish Consumption Rate Technical Work Group AND the Coordinated Tribal Water Quality Program group on February 9<sup>th</sup> with Cheryl Niemi from the Department of Ecology to discuss Ecology's rule-making process for water quality standards in depth. The meeting is tentatively scheduled from 10 to 3 in the Lacey area—details will be coming later.

FISH CONSUMPTION RATE WORK GROUP: We still have a conference call Thursday at 1:30. Please refer to the email I sent on Jan 4<sup>th</sup> for the agenda or contact me if you no longer have it. Thanks.

Please let me know if you have any questions.

Ann
